INSTALLATION OF TRUNK WATER MAINS IN W. 60TH STREET
AND SURROUNDING AREAS
PROJECT# MED609(609B)

Borough: Manhattan

June 24, 2016

WATER SERVICE INTERRUPTION

Columbus Avenue from W.63rd Street to W.60th Street

Monday, June 27, 2016

8:00AM FOR 8 (EIGHT) HOURS

WHY IS MY WATER BEING TURNED OFF?

The NYC Department of Design and Construction is managing the capital construction project on Columbus Avenue from West 63rd Street to West 60th Street. To facilitate the installation of the 12" water main, a water shutdown is necessary. It will occur at/about 8:00am and last for approximately eight (8) hours. On occasion, this work may be completed earlier and water service restored.

SOME THINGS TO REMEMBER:

- The DDC recommends that you shut off the water main valve in your house/building in order to avoid problems that may occur if/when sediment enters or is released from your plumbing.
- You are asked to shut off all WATER cooled appliances, which may include air conditioners, etc.
- Once water service is returned, turn the main house valve back on and flush the system by running your faucets to sinks and tubs for a about 15 to 30 minutes.

If you have any questions, concerns, or would like to learn more about the DDC project, please call the Community Construction Liaison (CCL) Wayan Brown, at 646-738-4894, or visit the NYCDDC web site at www.nyc.gov/ddc. During non-construction hours please contact New York City Government Services and Information Hotline at 311.

IF YOU HAVE ANY QUESTIONS ABOUT NYC WATER QUALITY, PLEASE CONTACT THE NYC DEPARTMENT OF ENVIRONMENTAL PROTECTION (NYCDEP) AT (718) 595-3496.

On More information on the health impacts of lead please go to: www.cdc.gov/nceh/lead/leadinwater/default.htm

We appreciate your cooperation and thank you for your patience while we rebuild NYC's infrastructure.
